This is the

#1

dominant segment
for this area

In this area

100.0%

of households fall
into this segment

In the United States

3.0%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Workday Drive is an affluent, family-oriented market with a country flavor. Residents are partial to new housing away from the bustle of the city but close enough to commute to professional job centers. Life in this suburban wilderness offsets the hectic pace of two working parents with growing children. They favor time-saving devices, like banking online or housekeeping services, and family-oriented pursuits.

Our Neighborhood

- Workday Drive residents prefer the suburban periphery of metropolitan areas. Predominantly single family, homes are in newer neighborhoods, 34% built in the 1990s, 31% built since 2000. Owner-occupied homes have high rate of mortgages at 68%, and low rate vacancy at 4%. Median home value is \$257,400. Most households are married couples with children; average household size is 2.97. Most households have 2 or 3 vehicles; long travel time to work including a disproportionate number commuting from a different county

Socioeconomic Traits

- Education: 40.5% college graduates; more than 72% with some college education. High labor force participation rate at 71%; 2 out of 3 households include 2+ workers. Connected, with a host of wireless devices, anything that enables convenience, like banking, paying bills, or even shopping online. Well insured and invested in a range of funds, from savings accounts or bonds to stocks. Carry a higher level of debt, including first and second mortgages and auto loans.

Market Profile

- Most households own at least 2 vehicles; the most popular types are minivans and SUVs. Family-oriented purchases and activities dominate, like 4+ televisions, movie purchases or rentals, children's apparel and toys, and visits to theme parks or zoos. Outdoor activities and sports are characteristic of life in the suburban periphery. They attend sporting events, as well as participate in them like bicycling, jogging, golfing, and boating. Home maintenance services are frequently contracted, but these families also like their gardens and own the tools for minor upkeep, like lawn mowers, trimmers, and blowers.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2021. Update Frequency: Annually.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
