2021 Tapestry Market Segmentation (Households): 1st Dominant Segment Professional Pride

Suburban Periphery

Affluence in the suburbs, married couple-families, longer commutes

About this segment Professional Pride

This is the

#1

dominant segment for this area

98.7% of households fall

into this segment

In this area

In the United States

1.6% of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Professional Pride consumers are welleducated career professionals who have prospered through the Great Recession. To maintain their upscale suburban lifestyles, these goal-oriented couples work, often commuting far and working long hours. However, their schedules are fine-tuned to meet the needs of their school-age children. They are financially savvy; they invest wisely and benefit from interest and dividend income. So far, these established families have accumulated an average of \$1.5 million in net worth, and their annual household income runs at more than twice the U.S. average. They take pride in their newer homes and spend valuable time and energy upgrading. Their homes are furnished with the latest in home trends, including finished basements equipped with home gyms and in-home theaters.

Our Neighborhood

 Typically, owner occupied, single-family homes are in newer neighbor hoods: 67% of units were built in the last 20 years. Neighborhoods are primarily located in the suburban periphery of large metropolitan areas. Most households own three or more vehicles; long commutes are the norm. Homes are valued at more than twice the US median home value, although three out of four homeowners have mortgages to pay off. Families are mostly married couples (almost 80% of households), and nearly half of these families have kids. Their average household size, 3.13, reflects the presence of children.

Socioeconomic Traits

• Professional Pride consumers are highly qualified in the science, technology, law, or finance fields; they've worked hard to build their professional reputation or their start-up businesses. These consumers are willing to risk their accumulated wealth in the stock market. Most have a preferred financial institution, regularly read financial news, and use the Internet for banking transactions. Residents are goal oriented and strive for lifelong earning and learning. Life here is well organized; routine is a key ingredient to daily life.

Market Profile

 These frequent travelers take several domestic trips a year, preferring to book their plane tickets, accommodations, and rental cars via the Internet. Residents take pride in their picture perfect homes, which they continually upgrade. They shop at Home Depot and Bed Bath & Beyond to tackle the smaller home improvement and remodeling tasks but contract out the larger projects. Hire housekeepers or professional cleaners. Residents are prepared for the ups and downs in life; they maintain life insurance: homeowners and auto insurance; as well as medical, vision, dental, and prescription insurance through work. They are actively investing for the future; they hold 401(k) and IRA retirement plans, plus securities. Consumers spend on credit but have the disposable income to avoid a balance on their credit cards. They spend heavily on Internet shopping; Amazon.com is a favorite website. Consumers find time in their busy schedules for themselves. They work out in their home gyms, owning at least a treadmill, an elliptical, or weightlifting equipment. They also visit the salon and spa regularly. All family members are avid readers: they read on their smartphones, tablets, and ereaders but also read hard copies of epicurean, home service, and sports magazines. Residents, both young and old, are tech savvy; they not only own the latest and greatest in tablets, smartphones, and laptops but actually use the features each has to offer.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2021. Update Frequency: Annually.

About this segment Savvy Suburbanites

This is the

#2

dominant segment for this area

1.4%

into this segment

In this area

In the United States

3.0% of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Savvy Suburbanites residents are well educated, well read and well capitalized. Families include empty nesters and empty nester wannabes, who still have adult children at home. Located in older neighborhoods outside the urban core, their suburban lifestyle includes home remodeling and gardening plus the active pursuit of sports and exercise. They enjoy good food and wine, plus the amenities of the city's cultural events.

Our Neighborhood

• Established neighborhoods (most built between 1970 and 1990) found in the suburban periphery of large metropolitan markets. Married couples with no children or older children; average household size is 2.85. 91% owner occupied; 66% mortgaged. Primarily single-family homes, with a median value of \$362,900. Low vacancy rate at 3.8%.

Socioeconomic Traits

• Education: 50.6% college graduates; 77.6% with some college education. Higher labor force participation rate at 67.9% with proportionately more 2worker households at 62.2%. Wellconnected consumers that appreciate technology and make liberal use of it for everything from shopping and banking to staying current and communicating. Informed shoppers that do their research prior to purchasing and focus on quality.

Market Profile

· Residents prefer late model, familyoriented vehicles: SUVs, minivans, and station wagons. Gardening and home remodeling are priorities, usually DIY. Riding mowers and power tools are popular, although they also hire contractors for the heavy lifting. There is extensive use of housekeeping and personal care services. Foodies: They like to cook and prefer natural or organic products. These investors are financially active, using a number of resources for informed investing. They are not afraid of debt; many households carry first and second mortgages, plus home equity credit lines. Physically fit, residents actively pursue a number of sports, from skiing to golf, and invest heavily in sports gear and exercise equipment.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About RPR (Realtors Property Resource)

- Realtors Property Resource[®] is a wholly owned subsidiary of the National Association REALTORS[®].
- RPR offers comprehensive data including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

CATRS CAPITAL AREA TECHNOLOGY & REALTOR® SERVICES

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- Listing data from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- Market conditions and forecasts based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- School data and reviews from Niche.
- Specialty data sets such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
